

Water Savings

We use hot water for many things: to wash our clothes, our dishes and ourselves. A few simple tips can save energy.

An AEP Company

TAKE CHARGE™

Energy-Saving Water Upgrades

Faucet aerators produce a forceful stream regardless of water pressure, minimizing the amount of energy needed to heat hot water.

Upgrade to a **multi-function showerhead** to deliver a broad set of sprays designed to lessen water waste when you take a shower.

The **water temperature card** can help you better understand what temperature to adjust your water heater to for more savings.
